MOUNTING HOLE SYSTEM MARKINGS:

- diameter of mounting holes 16 mm

- mounting holes spaced every 50 mm

- mounting holes arranged diagonally

- diameter of mounting holes 28 mm

- mounting holes spaced every 100 mm

WELDING TABLES – TRADITIONAL

new series of Traditional Welding Tables – **EXPERT**

TECHNICAL PARAMETERS

EXPERT

The **EXPERT** series is a guarantee of performance and durability in any application. The load capacity of this model reaches an impressive 1000 kg per leg, making it the ideal partner for working with large and heavy structures. **The 25 mm thick table top** with 10 mm thick dense ribbing is a solid base, ensuring stability and resistance to deformation.

The **EXPERT** series welding table was primarily designed for heavy structures. It is ideal for the manufacture of heavy road, construction machinery, cranes. It will work well in the shipbuilding industry and for the production of railroad cars or heavy trailers. It will be perfect for advanced heavy welding and metalworking projects where exceptional strength and precision are required.

WELDING TABLES – TRADITIONAL

EXPERT, PRO, PLUS and **ECO** series

TECHNICAL PARAMETERS

TRADITIONAL GPPH WELDING TABLES COME IN FOUR SERIES: EXPERT, PRO, PLUS, AND ECO. EACH OF THEM IS IN AS MANY AS 10 VERSIONS OF DIMENSIONS.

You will use them wherever **precision during welding** is needed. For example, you can use them for manual or robotic welding. As a result, your constructions will finally be made accurately, without unnecessary corrections!

It also ensures ergonomic and fast work while maintaining the precision and repeatability of the structures. All tables are available with legs on feet or legs on wheels – the choice is up to you!

Tables are made of material **S355J2+N** according to ISO 2768-1.

All tables are available with legs on feet or legs on wheels

Each table top has an **engraved scale**. The engraved scale is vertical and horizontal lines in a 100x100 mm grid. It is a reference point when laying the constructions and when assembling tools. Using measuring tools, you can set your structure correctly to get the required dimension.

Depending on your preferences, you can choose **EXPERT, PRO, PLUS, and ECO** Welding Tables in hole systems:

PRO PLUS ECO		
GRID	HOLE SYSTEM	
	Ø 28 mm	Ø 16 mm
	100 x 100	50 x 50
		100 x 100
	DIAGONAL	DIAGONAL

EXPERT		
GRID	HOLE SYSTEM	
	Ø 28 mm	
	100 x 100	
	DIAGONAL	

WELDING TABLES – TRADITIONAL

EXPERT, **PRO**, **PLUS** and **ECO** series

TECHNICAL PARAMETERS

DIMENSIONS OF **EXPERT**, **PRO**, **PLUS** AND **ECO** SERIES TABLES [mm]:

* The 3000x1480 GPPH welding table consists of two 1500x1480 GPPH welding tables connected to each other.

All tables have ribs, which results in a perfectly flat work surface. Ribs are arranged every 400 mm on average.

The massive and rigid foundation of the table top guarantees the highest stability during use and protection against deformation. Tables sidewalls have a height of 200 mm and are executed with a deviation tolerance of $\pm 0.3^\circ$.

THE CARRYING CAPACITY OF THE LEGS IN EACH SERIES:

EXPERT

120 x 120 mm

PRO

100 x 100 mm

PLUS

80 x 80 mm

ECO

60 x 60 mm

WELDING TABLES – TRADITIONAL

EXPERT, **PRO**, **PLUS** and **ECO** series

TECHNICAL PARAMETERS

THE DIFFERENCES BETWEEN THE SERIES OF GPPH WELDING TABLES:

PARAMETER	EXPERT SERIES	PRO SERIES	PLUS SERIES	ECO SERIES
Tolerance on flatness for a table (on the whole worktop)*	±0,3 mm	±0,3 mm	±0,3 mm	±0,5 mm
Three grids of holes on the 4 sides	✓	✓	✓	✓
Table top thickness	25 mm	15 mm	12 mm	8 mm
Chamfered and milled holes	✓	✓	✓	✗
Chamfered holes from bottom	✓	✓	✓	✗
Holes manufacturing tolerance	+0,05 mm	+0,05 mm	+0,05 mm	±0,1 mm
Leg profile	120x120x4 mm	100x100x4 mm	80x80x4 mm	60x60x4 mm
Capacity	1000 kg / leg	700 kg / leg	500 kg / leg	250 kg / leg
Total load capacity for a table with 4 legs	4 000 kg	2 800 kg	2 000 kg	1 000 kg
Total load capacity for a table with 6 legs	6 000 kg	4 200 kg	3 000 kg	1 500 kg
Total load capacity for a table with 8 legs	8 000 kg	5 600 kg	4 000 kg	2 000 kg
Milled table top edges	✓	✓	✓	✗
Number of dimensional versions	10 versions	10 versions	10 versions	10 versions

*provided that the table is leveled correctly.

For the **EXPERT** series Welding Tables, you will use the **EXPERT** series milled tools, For the **PRO** series, you will use milled tools from the **PRO** series, and for the **PLUS** and **ECO** series, you will use milled tools from the **PLUS** series. With them, you will precisely make any 2D flat and 3D spatial design. And all this in much less time!

You can find tools from the **EXPERT** series on page 39, the **PRO** series on page 40, and the **PLUS** series on page 41.

WELDING TABLES – TRADITIONAL

EXPERT, PRO, PLUS i ECO series – tables with legs on feet

DIMENSIONS

Tables with legs on feet with a $\varnothing 28$ mm or $\varnothing 16$ mm hole system in a 100x100 mm grid:

Table top size [mm]			
EXPERT SERIES	PRO SERIES	PLUS SERIES	ECO SERIES
1000 x 600		1000 x 600	
1000 x 1000		1000 x 1000	
1200 x 800		1200 x 800	
1200 x 1000		1200 x 1000	
1200 x 1200 		1200 x 1200	
1500 x 1000		1500 x 1000	
1500 x 1480		1500 x 1480	
2000 x 1000		2000 x 1000	
2400 x 1200		2400 x 1200	
3000 x 1480		3000 x 1480	

Tables with legs on feet with a 28 mm or 16 mm hole system in a diagonal grid and for tables with a 16 mm hole system in a 50x50 mm grid:

Table top size [mm]			
EXPERT SERIES	PRO SERIES	PLUS SERIES	ECO SERIES
1000 x 600		1000 x 600	
1000 x 1000		1000 x 1000	
1200 x 800		1200 x 800	
1200 x 1000		1200 x 1000	
1200 x 1200 		1200 x 1200	
1500 x 1000		1500 x 1000	
1500 x 1480		1500 x 1480	
2000 x 1000		2000 x 1000	
2400 x 1200		2400 x 1200	
3000 x 1480		3000 x 1480	

WELDING TABLES – TRADITIONAL

EXPERT, PRO, PLUS i ECO series – tables with legs on wheels

DIMENSIONS

Tables with legs on wheel with a Ø 28 mm or Ø 16 mm hole system in a 100x100 mm grid:

Table top size [mm]			
EXPERT SERIES	PRO SERIES	PLUS SERIES	ECO SERIES
1000 x 600		1000 x 600	
1000 x 1000		1000 x 1000	
1200 x 800		1200 x 800	
1200 x 1000		1200 x 1000	
1200 x 1200		1200 x 1200	Ø 28 100
1500 x 1000		1500 x 1000	
1500 x 1480		1500 x 1480	Ø 16 100
2000 x 1000		2000 x 1000	
2400 x 1200		2400 x 1200	
3000 x 1480		3000 x 1480	

Tables with legs on wheel with a 28 mm or 16 mm hole system in a diagonal grid and for tables with a 16 mm hole system in a 50x50 mm grid:

Table top size [mm]			
EXPERT SERIES	PRO SERIES	PLUS SERIES	ECO SERIES
1000 x 600		1000 x 600	
1000 x 1000		1000 x 1000	
1200 x 800		1200 x 800	Ø 28 DIAG
1200 x 1000		1200 x 1000	
1200 x 1200		1200 x 1200	Ø 16 DIAG
1500 x 1000		1500 x 1000	Ø 16
1500 x 1480		1500 x 1480	Ø 16 50
2000 x 1000		2000 x 1000	
2400 x 1200		2400 x 1200	
3000 x 1480		3000 x 1480	

WELDING TABLES – TRADITIONAL

EXPERT, PRO, PLUS i ECO series – stainless steel covers

DIMENSIONS

For each welding table from the **EXPERT, PRO, PLUS**, and **ECO** series, you can buy a 1 mm thick **stainless steel cover**.

To transform the Traditional GPPH Welding Table into a table ideal for welding stainless steel, just put an overlay on it.

The hole patterns of the stainless steel cap are the same as the hole patterns of the GPPH welding tables.

- HOLE SYSTEM Ø 28mm and Ø 16mm GRID 100x100mm

WELDING TABLES – STAINLESS

INOX series

TECHNICAL PARAMETERS

IN OUR OFFER, YOU WILL FIND THE CONVENTIONAL WELDING TABLES GPPH INOX, WHICH ARE AVAILABLE WITH **PRO** (15 MM) AND **PLUS** (12 MM) SERIES WORKTOPS. EACH OF THEM IS AVAILABLE IN TEN VERSIONS OF DIMENSIONS.

INOX SERIES WELDING TABLES FEATURE:

- High electrical conductivity – electrical resistance at 20°C = 0.73 ($\Omega \text{ mm}^2/\text{m}$).
- They are made of stainless steel with high chromium content, which ensures durability and corrosion resistance.
- When welding stainless steel structures, corrosion foci will not appear on them.
- INOX series of tables are available with feet on foot or on wheels.

Depending on your preferences, you can choose **PRO** and **PLUS** Welding Tables in hole systems:

- Ø 28 mm in a 100x100 mm grid
- Ø 28 mm in a diagonal grid
- Ø 16 mm in a 100x100 mm grid
- Ø 16 mm in a diagonal grid
- Ø 16 mm in a 50x50 mm grid

GRID	HOLE SYSTEM	
	Ø 28 mm	Ø 16 mm
		50 x 50
	100 x 100	100 x 100
	DIAGONAL	DIAGONAL

WELDING TABLES – STAINLESS

INOX series

TECHNICAL PARAMETERS

Each table top in the INOX version has an engraved scale. In addition, as in traditional welding tables, the tops have **solid and dense ribbing**, which contributes to a **perfectly flat working surface** (flatness tolerance of ± 0.3 mm over the entire dimension of the table top). The ribs are spaced every 400 mm on average. Solid and rigid construction of the tabletop ensures **maximum stability during use and protects against deformation**.

The height of the side walls of the tables is 200 mm and they are made with a deviation tolerance of $\pm 0.3^\circ$.

You will use milled PRO tools to work on INOX series Welding Tables with PRO series tops, while you will use milled PLUS series tops. **When working on INOX tables, you can use standard GPPH tools** because they are powder-coated. Using our tools, you will be able to accurately make any flat and three-dimensional structure in a much shorter time!

You can find the PRO series tools on page 25 and the PLUS series tools on page 47.

*Comparison of PRO and PLUS series worktops you will find on page 7.

For cleaning and protection of INOX series Welding Tables, our products GPPH CHEM - **PROTECTOR** and **HD CLEANER** are ideal.

(See page 51 for more on these).

WELDING TABLES – STAINLESS

INOX series

TECHNICAL PARAMETERS

DIMENSIONS OF INOX SERIES TABLES WITH PRO, PLUS SERIES worktops [mm]:

* The 3000x1480 GPPH welding table consists of two 1500x1480 GPPH welding tables connected to each other.

THE CARRYING CAPACITY OF THE LEGS IN EACH SERIES:

PRO INOX

100 x 100 mm

PLUS INOX

80 x 80 mm

WELDING TABLES – STAINLESS

INOX series – tables with legs on feet

DIMENSIONS

INOX tables with legs on feet with a fi 28 mm or fi 16 mm hole system in a 100x100 mm grid.

Table top size [mm]	
PRO SERIES worktop	PLUS SERIES worktop
1000 x 600	
1000 x 1000	
1200 x 800

WELDING TABLES – MODULAR

MWT series

TECHNICAL PARAMETERS

GPPH Modular Welding Tables are available in two variants of the top plates:

- material: S355J2+N
- material: tool steel subjected to the following treatment processes: nitriding + oxidation

The tops of the modular tables are made up of milled, sliding panels 15 mm thick, and by adjusting their surface you will achieve perfect flatness. They are made with a system of holes $\varnothing 28$ mm in a 100x100 mm grid.

In addition, the design of our modular tables allows you to increase the number of attachment points for tools in the gaps between the tabletop plates – increased ergonomics.

MODULAR TABLES HAVE:

- Milled and chamfered holes for easy tool installation.
- The modular tables are compatible with PRO series tools.
- The modular tables have wheels with a foot in the base legs, with a load capacity of 250 kg per leg.
- The height of the tables can be adjusted from 850 mm – 1150 mm, P=50 mm.
- It is possible to combine the tables to obtain a larger working area.
- As an option, you can also purchase side plates.

WELDING TABLES – MODULAR

MWT series

TECHNICAL PARAMETERS

TYPES OF GPPH MODULAR WELDING TABLES AND AVAILABLE DIMENSIONS [mm]

SINGLE TABLE

1000 x 1000

1200 x 1200

1600 x 1500

We offer three standard versions. They are ideal for small-scale production or serve as the basis for unlimited expansion of the surface of the welding station.

EXTENDABLE SINGLE TABLE

1770 x 1000

2170 x 1200

2670 x 1600

Each table from our offer can be unfolded thanks to sliding plates and the use of additional legs.

DOUBLE TABLE

2000 x 1000

2400 x 1200

3200 x 1500

The most popular sets are sets composed of two single tables. The design of the tables allows expansion in every direction. They are in three dimensions.

SET WITH A LARGE WORK SURFACE

2630 x 1770

3030 x 2170

4000 x 2670

Connection of two unfolded tables by means of connectors is the perfect solution for spatial construction. They are in three dimensions.

WELDING TABLES – WELDING & ASSEMBLY TABLES

BASIC series

TECHNICAL PARAMETERS

WHERE WILL YOU USE THE BASIC WELDING TABLE? YOU CAN USE IT WHEREVER WELDING REQUIRES PRECISION.

It does not matter if your welding work is done classically by hand or you use welding robots – BASIC tables are a perfect choice! Your constructions will finally be made accurately, without unnecessary corrections!

If you use a welding robot for your work, we have a great solution for you! The BASIC Welding Table is perfect as a base for **robotic welding workstations**, as well as for measuring. For this type of work, no side walls are used, so the BASIC Welding Table fulfils all your needs and at the same time is **more attractive in terms of price** compared to traditional welding tables with side walls.

BASIC WELDING TABLES HAVE:

- Perfectly flat work surface [± 0.3 mm on whole worktop];
- The massive and rigid base of the tabletop is 80mm high;
- Chamfered and milled holes for easy tool mounting, executed in tolerance $+0.05$ mm;
- Engraved scale in a 100x100mm grid;
- Made of material S355J2+N in accordance with ISO 2768-1;
- Height adjustment with standard legs approx. 880–930mm;
- All tables are rib reinforced, arranged every 400 mm on average;
- Milled table top edges;
- Tabletop thickness 12mm;
- Legs made of 60x60mm profile;
- Table load capacity up to 1,500 kg (250 kg/leg).

*these are approximate values

Using the milled tools of the PLUS series, you will build a suitable and easy-to-use working environment for making repetitive flat as well as spatial structures.

You can find the PLUS tools on page 41

WELDING TABLES – WELDING & ASSEMBLY TABLES

BASIC series – tables with legs on feet

DIMENSIONS

GPPH welding table legs are available with feet and with wheels. The foot provides reliable support, keeping the table top level and stable, allowing you to concentrate on making precise welds and assemblies. Thus, tables with feet provide a solid and reliable base for professional welders and do-it-yourselfers.

Tables with legs on feet with hole system
Ø 28 mm and Ø 16 mm in 100x100 mm
grid:

WELDING TABLES – WELDING & ASSEMBLY TABLES

BASIC series – tables with legs on wheels

DIMENSIONS

Welding tables with legs on wheels are an excellent option for those who need mobility and flexibility in organising their workspace. The wheels allow the table to be easily moved around the workshop, making work more efficient. In addition, the wheels are equipped with a locking mechanism that keeps the table in a stable position during welding or assembly.

Tables with legs on wheels with hole system Ø 28 mm and Ø 16 mm in 100x100 mm grid:

WELDING TABLES – WELDING & ASSEMBLY TABLES

DIY series

TECHNICAL PARAMETERS

The **DIY Welding and Assembly Table** has a dimension of 1200x800 mm and is available in the version of holes 16 mm in a 50x50 mm grid. The holes have an execution tolerance of ± 0.1 mm. In addition, the DIY table has an engraved scale in a 100x100 mm grid. The height of the table is 880 mm. The DIY welding and assembly table is made of S355J2+N material.

DIY tables are **densely ribbed**, which affects their perfect flatness [$\pm 0,5$ mm on the whole worktop]. In addition, they have equipped with leveling feet that level the unevenness of the floor.

The DIY table top is 8 mm thick. The maximum load capacity of the table is 500 kg. The table weight is approx. 90 kg. This product will be perfect not only for the welder and the **DIY enthusiast, carpenter, and car mechanic, as an auxiliary table for CNC machines and various workshops.**

For DIY tables, tools from the PLUS series are compatible with the fast assembly bolt 19-22 ECO/PLUS (see tools on page 42).

ASSEMBLY-WELDING TABLE DIY CONSISTS OF:

ADDITIONAL ACCESSORIES FOR DIY TABLES:

Adapter for tool shelves

Set of wheels for DIY table

WELDING TABLES – WELDING & ASSEMBLY TABLES

DIY series

TOOL KITS

For DIY welding and assembly tables, we offer two ready-to-use tool sets from the PLUS series (see page 35 for a presentation of all tools in this series) which are fastened with the 19-22 ECO/PLUS quick release dowel (see page 42).

In the case of set no. 1, tool shelf adapters are included so that a mobile tool shelf can be attached to the side of the DIY table top.

WELDING TABLES – OCTAGONAL

OCT series

TECHNICAL PARAMETERS

INNOVATIVE SOLUTION FOR INDUSTRY

Octagonal welding tables, dedicated for robotization, are an innovative solution for industries that rely on automation of welding processes. They are characterized by a unique octagon shape, which works perfectly with **robotic welding systems**.

OCT series tables are widely used in manufacturing, especially where there is a need for automation and precision in welding processes. They are ideal for the automotive, aerospace and steel structure manufacturing industries.

OCT SERIES TABLE DIMENSIONS [mm]:

- **PRECISION AT THE HIGHEST LEVEL:** The octagonal shape of the table allows precise positioning of parts, which is crucial in applications where every millimeter matters.
- **FLEXIBILITY FOR DIFFERENT APPLICATIONS:** Octagonal tables are suitable for use with various welding robots.
- **STABILITY AND DURABILITY:** The design of GPPH tables is based on high-quality materials, which guarantees the stability and durability of the tables even under intensive use.
- **AUTOMATION INTEGRATION:** The tables have special mounting points and holes that facilitate integration with automation systems, which greatly speeds up the process of implementing production lines.
- **WORKSPACE OPTIMIZATION:** The octagonal shape allows for optimal use of working space, which is extremely important for manufacturing plants where every square meter matters.

WELDING TABLES – LIFTING

with hydraulic lifting system – **XWT** series

TECHNICAL PARAMETERS

GPPH WELDING TABLES WITH HYDRAULIC LIFTING

SYSTEM ARE SPECIALISED TABLES WITH AUTOMATIC TABLE TOP HEIGHT ADJUSTMENT.

WELDING TABLES WITH HYDRAULIC LIFTING SYSTEM HAVE:

- Overload valve to prevent lifting too heavy a load.
- A safety valve to stop lowering if the hydraulic lines break.
- Limit switches to prevent crushing or injury to the user.

WELDING STATION

WELDSTATION series

TECHNICAL PARAMETERS

WELDING STATION WITH TOOL STORAGE SYSTEM

WELDSTATION is an indispensable welding station that revolutionizes the organization of the welder's workstation. Equipped with an innovative tool storage system, WeldStation provides convenience, functionality and efficiency during the welding process.

WELDSTATION has 4 types of drawers (in version 3000x1480):

- 4 drawers 52x553x517mm
- 4 drawers 96x553x517mm
- 4 drawers 180x553x517mm
- 2 drawers 348x553x517mm

The drawers are equipped with a **rubber mat** with a surface of anti-slip, 3 mm thick.

- **TOOL STORAGE SYSTEM:** The WeldStation is designed to optimally organize the tools needed for the structural assembly and welding process. The station's built-ins include drawers, perforated panels for mobile tool shelves, and a generously sized storage area for storage and easy access to essential accessories.
- **ERGONOMIC WELDING TABLE:** The centerpiece of the WeldStation is a sturdy welding table top that provides a stable and comfortable work surface.
- **DURABLE CONSTRUCTION:** WeldStation was made of high quality materials, which guarantees its durability and durability even under intensive use in harsh industrial conditions.
- **AUTOMATION INTEGRATION:** In addition to its functionality, WeldStation also looks elegant and professional. The aesthetic design makes the welding station not only a practical working tool, but also an attractive piece of equipment in any workshop.
- **SOLID FOUNDATION:** The tool storage system body stiffens the welding table, so that the product reaches a load capacity of **4000 kg** or **6000 kg** (depending on the selected dimensional version). It has special reinforcements dedicated to transporting it with a forklift or pallet trucks.

GRINDING-WELDING STATION

SOG series

TECHNICAL PARAMETERS

The grinding-welding station is intended for capturing and removing the dust and gases formed during grinding with a hand grinder or welding and metalworking operations. The station may be used with an exhaust fan or fan-powered filter equipment.

The GPPH grinding-welding station **SOG**, is available in three versions:

1270 x 770

1870 x 770

BASE

BASE WITH GUARDS

BASE WITH TOP EXHAUST

The base of the station is designed to accommodate shielding and a top extraction kit. Each version of the grinding and welding station consists of a working table with a top made of 8 mm thick metal sheet.

The table top has mounting holes in the 28 mm Ø system in a 100x100 mm grid and additional holes for dust and gas extraction.

The grinding/welding workstation with covers has a rear cover, while the version with top extraction has a top extraction enclosure. Both versions (with shielding and top extraction) are equipped with hinged doors on the right and left sides - this enables workpieces longer than the width of the grinding and welding workplace to be placed on the table.

Each version of the SOG has a 160 mm diameter spigot mounted in the side surface of the extraction sump. The air can be extracted from below via the extraction sump table. All types of grinding/welding station are equipped with an extraction sump with drawers, two 230V sockets for connecting power tools and installation for connecting workspace lighting.

You will use the following tools for the GPPH grinding/welding stations from the PLUS series mounted with the 19-22 ECO/PLUS adjustable connector (see tools on page 41).

WELDING SUPPORTS

TRESTLE series

TECHNICAL PARAMETERS

TRESTLE welding support is the foundation for a variety of welding projects and more. Our welding support is an indispensable tool that can be used for many industries and purposes.

GPPH WELDING SUPPORTS COME IN FOUR SERIES: **EXPERT**, **PRO**, **PLUS** AND **ECO**.

DIMENSIONS OF TRESTLE SUPPORTS [mm]

600x200x200	800x200x200	1000x200x200	1200x200x200	1500x200x200	2000x200x200	2400x200x200
-------------	-------------	--------------	--------------	--------------	--------------	--------------

MAIN USES OF THE TRESTLE WELDING SUPPORT INCLUDE:

- **INCREASING THE WORKING AREA:** Thanks to its sturdy design, our support allows you to expand your working space, enabling more ergonomic and comfortable working conditions during welding.
- **A STABLE BASE FOR WELDING PROJECTS:** Our support provides the stability and sturdiness necessary to carry out precise and complex welding projects. It is an invaluable support for professional welders and anyone looking for a solid base for their work.
- **SUPPORT FOR ASSEMBLY WORK:** The welding support can also be used as a stable platform for assembling a variety of structural components, making assembly processes easier and faster.

All supports come in versions with legs on feet or on wheels

WELDING BLOCKS

Welding Blocks are tools that are designed to connect two or more welding tables together, while maintaining functionality – just like a table top, they have a grid and mounting holes. You can use them to create a custom-shaped welding station – connecting any number of tables, creating a workstation tailored to a particular project.

The blocks can be used alone or with the legs as a TRESTLE welding support (see page 36).

TOOL TROLLEYS

maintaining order at the workplace

TOOL TROLLEY M

16_T_012B | 28_T_012B

One of the many advantages of the small tool trolley is that it fits under most dimensions of GPPH Welding Tables. You have all the tools at your fingertips while working!

TOOL TROLLEY L

16_T_012A | 28_T_012A

The large GPPH tool trolley will accommodate a set of tools even for the most demanding user! Thanks to it, your workplace will become transparent like never before, and GPPH tools will be clearly arranged and more accessible.

*tool trolleys are available in the version of holes fi 16 mm and fi 28 mm.

GPPH CHEM

professional chemicals for the welding industry

PRODUCT FEATURES

CH_001_PR

CH_002_PR

PROTECTOR (concentrate) is an essential preparation for protecting the welding bench by leaving a special, permanent protective layer on them. It keeps welding tables splinter-free, resulting in more precise, comfortable and orderly work.

The use of PROTECTOR significantly protects the equipment from the effects of use. The fluid is odourless and does not emit volatile substances hazardous to health during welding. It does not contain oil compounds, so there are no contraindications for use on materials that are subsequently painted or galvanised.

Capacity: 1l

Capacity: 5l

CH_001_CL

CH_002_CL

HD CLEANER (concentrate) is an alkaline, highly concentrated and powerful cleaner for welding tables enriched with corrosion inhibitors. The product effectively cleans heavily soiled table surfaces, leaving an active anti-corrosion coating. Thanks to its specially developed formulation, HD Cleaner stands out for its high cleaning efficiency.

Capacity: 1l

Capacity: 5l

We recommend the application of the product with the **GPPH CHEM Sprayer** to obtain the best effects. GPPH CHEM Sprayer is the best solution for the application of professional chemicals GPPH CHEM: PROTECTOR and HD CLEANER.

- **SYSTEM 360°** – spray at any position of the container
- **SUPER DOUBLE ACTION PUMP** – spray after pressing and releasing the lever of the pump continuous stream
- **ADJUSTABLE NOZZLE** – adjust the degree of spray from a mist to a continuous stream
- **LIQUID LEVEL INDICATOR** – easy dosage of liquid and control of its level in the tank
- **FPM SEALS** – high chemical resistance ensuring long and failure-free operation
- **STABILIZING RING** (bottom part of the spray) – stabilizing and protecting the tank against mechanical damage
- **CAPACITY (l): 0,5l**
- **SPRAY RATE FOR A FULL CYCLE (ml): 3ml**
- **WEIGHT (kg)** (of the sprayer, without liquid inside): 0.14kg
